Starter programs new to the YouthBuild mentoring model can apply for pass-through funding in the amount of \$7,000 in the first year to prepare for a fully realized mentoring effort in the second year. . It is expected that in the first year Starter Programs will recruit, screen, and train at least 7 mentors, and be prepared to offer group mentoring to at least three (3) YouthBuild students 16 to 17 year olds. Group mentoring must begin no later than 9/30/2015.

Project Description (No more than 2 pages): In two pages or less, please provide an overview of your program's capacity and competency to meet the basic requirements of a Starter Mentoring Program subaward as detailed above. Describe your vision and philosophy of mentoring, how mentoring fits in your existing program model, and your plan for adapting the YouthBuild Mentoring model into your program. Describe your current mentoring program and history with mentoring, if applicable, and how these additional funds would further strengthen, enhance, and/or integrate mentoring within your YouthBuild program. Indicate the roles and responsibilities of the fiscal staff as well as their qualifications and experience managing a federal subaward.

Budget and Budget Narrative (Budget Form attached): Applicants must use the attached [Budget Form](#) to provide a detailed computation for each budget line item, listing the cost of each item and how it was calculated. For example, costs for personnel must show the annual salary rate and the percentage of time devoted to the mentoring program. YouthBuild programs are strongly encouraged to budget federal funds from YouthBuild USA in a few simple categories such as Personnel (salary, fringe benefits/fringe rate), Supplies, and Other Costs (for example, adult mentor background checks which usually cost about \$50 per background check for each adult). If your mentoring program budget includes other funds in addition to the federal OJJDP funds, please list. In addition, if you are required to complete an A-133 audit, please attach a copy of your most recent audit. Attached is a budget sample for your reference. **You can only include indirect if you have a federally approved IDC rate.** A budget narrative detailing each line item and the funding budget for it must be included clearly explaining the use of expenditures.
