from real life book for a limited time discount of only 2 99 don t miss it and read everyone once must it s always been there but now something has changed flening has always been a quiet friendly town nestled in the forests of northwest florida it s home to a small population of familiar faces and the natural beauty of still lake but now the town is changing people are getting sick and some are going crazy a mysterious illness is sweeping through destroying families and threatening to spread further people are changing dr craig lenton is desperately trying to stop the sickness before he and the people he loves become part of the carnage but time is running out and the calm waters of still lake may be hiding something sinister and evil underneath on a violent medieval world plagued by egotism and misogynist lords and soldiers a young girl and her brother fall victim to a sinister alien object that comes from the sky and changes their lives forever as they and a handful of survivors flee for

safety from the sinister endeavors of the strange object their sanity and hearts will be tested to the limit will they overcome the apocalyptic events or join the blackness is this evil that came from the sky the only terrible obstacle they will encounter on their perilous journey is there any hope against such horrifying odds there is only one way to find out this paperback edition contains a bonus story thirteen horror stories weave truths you do not want to hear the collection includes intensive scare three teenagers dabble in the occult and learn there s a good reason to be afraid of the dark red white and black when a clinical trial goes horribly wrong a lone survivor finds herself fleeing from a sentient infection meeting mum introducing a new girlfriend to your parents has never been so problematic midnight clay an otherwise pleasant homeward journey is interrupted by a demon with a particularly grotesque skill each story binds the shadow fabric mythos tighter revealing that

everything around us is entwined with a deep rooted darkness and sometimes that darkness the fabric tears there s a girl screaming at the top of a hill burdened by a duty she was born to fulfill there s a quiet killer lurking nearby watching as she wishes only to die she s tasked by her mother to marry a man until the demon from hell puts a wrench in the plan their fates will twine in inconceivable ways but where one goes the other cannot stay how could she fall for such a man you ask for the girl with no heart it was the easiest ta emperor mollusk intergalactic menace destroyer of worlds conqueror of other worlds mad genius ex warlord of earth not bad for a guy without a spine but what s a villain to do after he s done everything with no new ambitions he s happy to pitch in and solve the energy crisis or repel alien invaders should the need arise but if he had his way he d prefer to be left alone to explore the boundaries of dangerous science just as a hobby of course retirement isn t easy

though if the boredom doesn't get him there's always the venusians or the saturnites or the mercurials or well you get the idea if that wasn't bad enough there's also the assassins of a legendary death cult and an up and coming megalomaniac as brilliant as he is bodiless who have marked emperor for their own nefarious purposes but mollusk isn't about to let the earth slip out of his own tentacles and into the less capable clutches of another so it's time to dust off the old death ray and come out of retirement except this time he's not out to rule the world he's out to save it from the peril of the sinister brain there is nothing unusual about a young catholic girl from the bronx winding up raped beaten strangled and decapitated unless she winds up that way in lefthand canyon in the colorado rockies where there hasn't been a murder since 1922 then it's unusual enough to become a problem for the sheriff of lee county and when he finds no blood at the scene and no physical evidence it becomes

more than a problem it becomes a headache for five long years that's when he bats it back to the bronx to the 43rd precinct and right onto detectives stone and dehan's desk let them deal with it but lee county is one of the remotest parts of the usa and stone finds his pool of suspects limited to say the least was it greg the tough plain talking rancher was it ingrid and alfredo the bitter puritanical in laws or somebody in the off grid dope farming community at the shack or was it somebody else somebody completely different monster diary is the latest saga in nick redfern's ongoing series of worldwide road trips in search of strange creatures and terrifying beasts in this transatlantic trek redfern is hot on the trail of a mothman like creature in wisconsin giant eels that lurk in the canals of birmingham england a spectral mammoth and a ghostly big cat in american woods bigfoot in new mexico a chupacabras in the wilds of oklahoma vampire like beasts roaming the valleys
