Racism in Mind 2018-08-06 it is a story that moves us to tears an american couple travels across the world to rescue a child from the hopelessness of a foreign orphanage bringing their new son or daughter to a life of love and family but does this transition always go smoothly adoptive parents hope their child will easily fit into the family and quickly become emotionally connected to the parents or siblings but child psychologists and adoption experts say this connection is the most difficult aspect of international adoption in countries where international adoptions are common china russia or romania orphanages commonly represent the available children to their new parents as healthy kids who just need a little love in many cases this is a gross misrepresentation children who spend time in institutionalized care may have experienced

trauma and therefore may not attach easily to their new family parents anxious to bring these children into their homes and their hearts struggle seriously with this issue although these children will eventually adapt in a healthy fashion the road to emotional health and harmony can be a rocky one becoming a family tackles this intricate issue head on it provides parents with effective strategies for ensuring that their adopted child adjusts as quickly and seamlessly as possible practical and accessible this book will help parents identify severe problems before the adoption significantly reduce the risk of future difficulty improve the damage already done to the child s otherwise normal healthy development and dramatically help unfold the child into a family ready to give love security and a new life
