this book is the thirteenth in a series presenting research papers arising from msc mres research projects undertaken by students of the school of computing and mathematics at plymouth university the publications in this volume are based upon research projects that were undertaken during the 2014 15 academic year a total of 17 papers are presented covering many aspects of modern networking and communication technology including security mobility coding schemes and quality measurement the expanded topic coverage compared to earlier volumes in this series reflects the broadening of our range of msc programmes specifically contributing programmes are communications engineering and signal processing computer and information security electrical and electronic engineering network systems engineering and robotics this book looks at the link between voters and political party systems in asian

democracies focusing on india indonesia korea and the philippines it discusses this link in terms of three distinct elements the formation of voters preferences the translation of preferences into votes and the translation of votes into seats the book goes on to discuss how far the general rules of political party systems and their underlying causal mechanisms such as strategic voting are apparent in these asian democracies in particular it explores the extent to which electoral rules and social structural variables affect the process of transforming preferences into a political party system within the context of asian politics the extensive areas covered by the book overcome the traditional sub regional division of asia namely east southeast and south asia when pigasso met mootisse what begins as a neighborly overture escalates into a mess before you can say paint by numbers the two artists become fierce rivals calling each other names and ultimately building a fence between them but when the two painters paint opposite sides of the fence that divides them they unknowingly create a modern art masterpiece and learn it is their friendship that is the true work of art nina laden s wacky illustrations complement this funny story that non only introduces children to two of the world s most

alike to understand what is behind the buttons of surveying instruments of all kinds when considering practical project implementations a collection of some of the pulitzer prize winning film critic s most scathing reviews from alex emma to the remake of yours mine and ours from roger s review of deuce bigalow european gigolo 0 stars the movie created a spot of controversy in february 2005 according to a story by larry carroll of mtv news rob schneider took offense when patrick goldstein of the los angeles times listed this year s best picture nominees and wrote that they were ignored unloved and turned down flat by most of the same studios that bankroll hundreds of sequels including a follow up to deuce bigalow male gigolo a film that was sadly overlooked at oscar time because apparently nobody had the foresight to invent a category for best running penis joke delivered by a third rate comic schneider retaliated by attacking goldstein in full page ads in daily variety and the hollywood reporter in an open letter to goldstein schneider wrote well mr goldstein i decided to do some research to find out what awards you have won i went online and found that you have won nothing absolutely nothing no journalistic awards of any kind maybe you didn t win a pulitzer prize because they haven t invented a category for best third rate unfunny pompous reporter who s never been acknowledged by his peers schneider was nominated for a 2000 razzie award for worst supporting actor but lost to jar jar binks but schneider is correct and

patrick goldstein has not yet won a pulitzer prize therefore goldstein is not qualified to complain that columbia financed deuce bigalow european gigolo while passing on the opportunity to participate in million dollar baby ray the aviator sideways and finding neverland as chance would have it i have won the pulitzer prize and so i am qualified speaking in my official capacity as a pulitzer prize winner mr schneider your movie sucks roger ebert s i hated hated hated this movie which gathered some of his most scathing reviews was a bestseller this collection continues the tradition reviewing not only movies that were at the bottom of the barrel but also movies that he found underneath the barrel horticultural reviews presents state of the art reviews on topics in horticultural science and technology covering both basic and applied research topics covered include the horticulture of fruits vegetables nut crops and ornamentals these review articles written by world authorities bridge the gap between the specialized researcher and the broader community of horticultural scientists and teachers with amazing low light capabilities incredible definition intelligent autofocus and a host of other features digital cameras have now become so powerful that they have left their users behind most photographers can take competent shots in a range of conditions or fix imperfect exposures in photoshop or lightroom but very few have the skill to push their cameras to the limit and capture the perfect
