The Meaning of Human Existence

2014-10-07 this is the third book in the series of influences from the inner domain all three books tell a story of the often overlooked component of every being their spirit domain and why it is such a necessary component of all beings the spirit domain is important for many reasons it keeps us centered and on track through our journey around life s circular path it orchestrates and coordinates the internal workings communications and for most of the existence of beings was the primary influence to the mind component it provided the mind with materials from its stores of knowledge and

experience to influence and guide it since the beginning of time unlike the other components of a being spirits never die they are reassigned to a newborn retaining all they have gathered through time to support past present and future beings spirits from their domain also influenced motion and movement from the being s physical component this gave the being fuller flexibility dexterity and movement capabilities most important of all it s in the spirit domain that life itself for each being is centered and originates this last book in the series tells of how the spirit domain s influence diminishes over time and of the other internal components and influence becoming the more dominant drivers it tells how the cost of this loss is great as depicted in this third book the spirit domain continues to strive to contribute to the being s existence but is much hampered through the fourth and final quadrant of life s circle to retain some contribution and an identity in determining who we are how we act and why we behave the way we do there is still goodness and evil in this part of the stories but more subtle from the spirits and their domains and stronger from other influences from the being s inner domain the magic and mystical begins to dissipate the beings and the civilization prepare for the closing of life circle new ones will soon begin and follow

The Book of Life 2014-07-15 samadhi is the goal and the peak of meditation according to classical and contemporary interpreters of yoga and meditation samadhi denotes the unity of the subject and the object the inner and the outer world our self and absolute in other words enlightenment here this unity is described simply as the unity of consciousness and existence in this book you will find much more details about this unity it will be revealed in a completely new way you will comprehend that unity of the conscious and the existence in a man is gradually achieved at all levels of consciousness and being on which a man exists and works in all dimensions and which are expressed in chakras psycho energetic centers in a man each chakra represents a blend of consciousness and existence this blend is also manifested through the human culture of life and civilization understanding the chakra is connected to the historical development of the

man and the events in the world not only to the personal states of consciousness it is an old and universal story of understanding the meaning of existence in fact the entire cosmos and life represent a spectrum of merging and expressing of consciousness and existence consciousness is expressed as existence and existence is fundamentally conscious moreover consciousness is here explained in the light of an understanding of the consciousness of a man's soul as well which through intelligent design thanks to the quantum field creates the whole reality and existence this can be because the soul of the man comes from the same divine consciousness that allows the whole existence a complete connection and the realization of both consciousness and existence occurs only in a man who reaches samadhi through meditation the whole other nature all of the cosmos and all of our lives are just a scenography in which the drama of this merging is occurring though paradoxically samadhi always already happens as a mere existence the only question is whether a person participates in it all the time whether he/she is aware of it this book will help you to see the existence in such a way

countries with emotions from thousands of people from all over the world from the deserts of africa to the jungles of south america from the greatest cities in the world to the highest mountains and deep oceans this is the collective pulse of our planet and our people a living testimony of the current state of our humanity each volume of the poetry trilogy is divided into 7 sections each section being a pillar the seven pillars of the poetry trilogy are in a major sense the story of every person's journey here on earth both internally and external as well as being a reflection of the collective life of the creation of humanity pillar 1 is god because i believe god is where we all come from it is the beginning and in the beginning there was only god pillar 2 is life because life is where our journey here on earth begins pillar 3 is love love is the ascension to higher emotional vibrations is the strongest of all emotions and plays a central part in our existence both independently as collectively pillar 4 hate hate is the descent into the deepest darkest depths of the human mind and of humanity as well almost as equally strong as love hate is love's polar opposite and is equally essential to existence this is an example of the law of dualities as mentioned by hermes and other prophets after pillar 4 we escape the hate through our adventures in pillar 5 travels pillar 5 travels travels takes us on a journey around the world and through exploring and discovering the world we explore and discover our self discovery of the self leads us to pillar 6 illuminations pillar 6 illuminations with illuminations all of the darkness is illuminated light will always be stronger than the darkness if ever in doubt remember a single candle can light up an entire room the darkness can not be wherever the light is when the darkness is illuminated by the light all the veils are lifted and we see god without the illusions of religion we see life without the illusions of the ego we see love without the illusions of lust we see hate without the illusions of anger we see travels without the illusions of physical matter we see illuminations without the illusions of thought and we see death without the illusions of fear this naturally brings us to the final pillar pillar 7 death death is death of ego death of body death of all that we thought was true undeniably discovered through death of the physical body or self death is to life what

hate is to love the necessary counterbalance of duality for indeed the only guarantee in the life experience is that we will all have the death experience as well pillar 7 completes the cycle of our non existential existence in earth and with the completion of the pillars you will have the completion of the poetry trilogy
