pursuit of the ideal must be paramount in artistic expression here we also see baudelaire caught in a fundamental struggle with the urban commodity of capitalism developing in paris at that time baudelaire s text proves to be a useful lens for understanding art criticism in mid nineteenth century france as well as the changing opinions regarding the essential nature of romanticism and the artist as creative genius acclaimed art historian and art critic michael fried s introduction offers a new reading of baudelaire s seminal text and highlights the importance of his writing and its relevance to today s audience presents the development and the aesthetic theories of the symbolist movement in art and literature many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive we are republishing these classic works in affordable high quality modern editions using the original text and artwork an acclaimed and most unusual biography of baudelaire showing him ensnared by his passions for poetry prostitutes and drugs a crucial link between romanticism and modernism charles baudelaire is a pivotal figure in european literature and thought his influence on modern poetry is immense in the english language where his literary reputation is less well known it is his link with drug culture that gives him contemporary resonance it is commonly known that baudelaire used opium many writers have described him as being addicted to the drug but none of his biographers frank hilton argues has fully understood the effect of opiate addiction on the personality and in the case of baudelaire the extent to which it damaged his life and work in this original contribution to baudelaire studies hilton contends that the drug is at the root of all baudelaire s problems and in particular something that constantly tormented him his chronic inability to apply himself to any prolonged creative work unquestionably there is significantly more to baudelaire than his opium addiction but a proper awareness of what it did to the poet helps to illuminate those puzzling aspects of his life and behavior that were not previously understood written with the general reader in mind baudelaire in chains will give those who know little or nothing about him a comprehensive picture of his life to those who know a great deal it will present him in an unexpected light in the 1840s charles baudelaire was a regular member of the infamous club des hashischins club of the hashish eaters a parisian literary group dedicated to the exploration of altered states of consciousness principally through the use of hashish a concentrated form of cannabis resin other notable members of this group included victor hugo alexandre dumas gerard de nerval honore de balzac and theophile gautier all dedicated to experimenting with drugs and drug induced states as a denizen of the hashishin club charles baudelaire was well placed to turn his drug experiences and those of others into literature inspired by thomas de quincey s 1821 confessions of an opium eater which he would also translate into french he turned his writing to drug intoxication around 1850 eventually producing a collection of drug related writings titled artificial paradise published in 1858 as well as a modified version of an earlier essay now titled on wine and hashish artificial paradise contained this the poem of hashish a lengthy dissertation on the effects of prolonged hashish use let it be well understood then by worldly and ignorant folk curious of acquaintance with exceptional joys that they will find in hashish nothing miraculous absolutely nothing but the natural in a superabundant degree the brain
