The Story Until Now 2013-03-15 some suggestions for the story teller concerning the fundamental points of method in telling a story i have little to add to the principles which i have already stated as necessary in my opinion in the book of which this is in a way the continuation but in the two years which have passed since that book was written i have had the happiness of working on stories and the telling of them among teachers and students in many parts and in that experience certain secondary points of method have come to seem more important or at least more in need of emphasis than they did before as so often happens i had assumed that those things are taken for granted whereas to the beginner or the teacher not naturally a story teller the secondary or implied technique is often of greater difficulty than the mastery of underlying principles the few suggestions which follow are of this practical obvious kind take your story seriously no matter how riotously absurd it is or how full of inane repetition remember if it is good enough to tell it is a real story and must be treated with respect if you cannot feel so toward it do not tell it have faith in the story and in the attitude of the children toward it and you if you fail in this the immediate result will be a touch of shamefacedness affecting your manner unfavourably and probably influencing your accuracy and imaginative vividness perhaps i can make the point clearer by telling you about one of the girls in a class which was studying stories last winter i feel sure if she or any of her fellow students recognises the incident she will not resent being made to serve the good cause even in the unattractive guise of a warning example a few members of the class had prepared the story of the fisherman and his wife the first girl called on was evidently inclined to feel that it was rather a foolish story she tried to tell it well but there were parts of it which produced in her the touch of shamefacedness to which i have referred when she came to the rhyme o man of the sea come listen to me for alice my wife the plague of my life has sent me to beg a boon of thee she said it rather rapidly at the first repetition she said it still more rapidly the next time she came to the jingle she said it so fast and so low that it was unintelligible and the next recurrence was too much for her with a blush and a hesitating smile she said and he said that same thing you know of course everybody laughed and of course the thread of interest and illusion was hopelessly broken for everybody now anyone who chanced to hear miss shedlock tell that same story will remember that the absurd rhyme gave great opportunity for expression in its very repetition each time that the fisherman came to the water s edge his chagrin and unwillingness were greater and his summons to the magic fish mirrored his feeling the jingle is foolish that is a part of the charm but if the person who tells it feels foolish there is no charm at all

Story and Structure 1993 the power of story is intended to give writers and storytellers a boost to their creativity by a thought provoking look at the importance of story through history and how it might be used today to affect change in peoples hearts and minds we do as a species like our stories it s in our dna i am convinced to always give more than joe friday s just the facts ma am we not only want to hear and tell what happened but we also want to know the complete who when where why and how that goes along with the what from the days of living in caves man has presented a whole lot more than just the facts when talking about anything going on in the world even in those pictures painted in the dark deep inside the caves of europe and elsewhere man was

telling a story for the artists did not only illustrate the hunt they created a pictorial narration of what went on the storyteller has been revered since long before we could read and write for just this reason it was the storyteller the bard who kept traditions alive from one generation to the next their stories not only entertained they educated they gave us as a people a center and an identity it was the storytellers traveling from town square to village green from stage to campfire who told the stories that kept us connected to one another to our past and to our future and if you think the importance of story has been lost over the centuries then you haven't attended a John Grisham book signing event or waited in line at an opening of a new Star Wars movie
