The Massachusetts Sales and Use Tax Manual 1987-01-01 tobacco use is the single largest cause of preventable death globally killing more than five million people each year tobacco use also creates considerable economic costs from greater spending on health care to treat the diseases it brings on in users and those exposed to tobacco smoke to the lost productivity resulting from the premature deaths it causes of all the many interventions for reducing tobacco use a significant increase in tobacco product taxes and prices has been demonstrated to be the single most effective and cost effective intervention particularly among the poor and the young at the same time because of the inelasticity of demand for tobacco products in most countries and the low share of tax in price in many significant increases in tobacco taxes generate significant increases in the revenues generated by these taxes this technical manual aims to help governments achieve both objectives

by identifying a set of best practices for tobacco taxation it documents governments existing approaches to tobacco taxation discusses barriers to using tobacco taxes to achieve health and revenue objectives and provides case studies of effective tobacco tax administration this manual is intended to be useful to tax administrators at the ministry of finance level by making them aware of the practices used and challenges faced by other countries it will also be useful to officials in a country s ministry of health or similar organizations by providing them with a more thorough understanding of key issues in tax structure and administration
