Impostors 2018-12-10 national bestseller updated with a new afterword this is the definitive account of what has gone wrong in our two party system and how our democracy has to adapt to survive it i can t say it in strong enough terms read this book rachel maddow the award winning producer of the rachel maddow show exposes the republican party as a gang of impostors meticulously documenting how they have abandoned their duty to govern and are gravely endangering america for decades american voters innocently assumed the two major political parties were equally mature and responsible governing entities ideological differences aside that belief is due for an overhaul in recent years the republican party has undergone an astonishing metamorphosis one so baffling and complete that few have fully reckoned with the reality and its consequences republicans simply put have quit governing as msnbc s steve benen charts in his groundbreaking new book the contemporary gop has become a post policy party republicans are effectively impostors presenting themselves as officials who are ready to take seriously the substance of problem solving but whose sole focus is the pursuit and maintenance of power astonishingly they are winning at the cost of pushing the political system to the breaking point despite having billed itself as the party of ideas the republican party has walked away from the hard but necessary work of policymaking it is disdainful of expertise and hostile toward evidence and arithmetic it is tethered to few if any meaningful policy preferences it does not know and does not care about how competing proposals should be crafted scrutinized or implemented this policy nihilism dominated the party s posture throughout barack obama s presidency which in turn opened the door to donald trump who would cement the gop s post policy status in ways that were difficult to even imagine a few years earlier the implications of this approach to governance are all encompassing voters routinely elect republicans such as mitch mcconnell and ted cruz to powerful offices expecting gop policymakers to have the technocratic wherewithal to identify problems weigh alternative solutions forge coalitions accept compromises and apply some level of governmental competence if not expertise the party has consistently proven those hopes misguided the result is an untenable political model that s undermining the american policymaking process and failing to serve the public s interests the vital challenge facing the civil polity is coming to terms with the party s collapse as a governing entity and considering what the party can do to find its policymaking footing anew the impostors serves as a devastating indictment of the gop s breakdown identifying the culprits the crisis and its effects while challenging republicans with an imperative question are they ready to change direction as benen writes a great deal is riding on their answer
