Chilton's General Motors Bonneville/Eighty Eight/Le Sabre 1998 identifying the Jeep CJ series vehicles as the most popular off road vehicles of all time may actually qualify as an understatement they really are that popular the CJ series arguably started after World War II with the CJ 2A being introduced to the masses and while the early CJs have their share of enthusiasts the largest group of enthusiasts began their love affair with the AMC powered Jeep CJ 5s beginning in 1972 joined by the longer wheelbase CJ 7 models introduced in 1976 the CJ models were wildly popular through their discontinuation in 1986 when the Wrangler was introduced these were the only models originally equipped with V8 engines in any meaningful way this era combined the ruggedness of the early Jeeps with some of the advancements and horsepower of a more modern era it makes a platform that is both fun to own and to modify Jeep guru Michael Hanssen covers all of the systems that can be upgraded to improve your Jeep's performance upgrades include suspension components such as springs shocks and
