Palmer's index to the Times newspaper 1910 the world to which the gospel of mark introduces its reader is a world of conflicts and suspense enigmas and secrets questions and overturning of evidence irony and surprise its principal actor jesus is perplexing in the extreme he is evidently so for the religious authorities who oppose him but also for his disciples who shift from incomprehension to opposition and flight questions of meaning life and death good and evil are continually broached this narrative is a subtle invitation to enter into a new world that of the coming reign of god in which the first are last and whoever wants to save his life must lose it this commentary on the gospel of mark has been enthusiastically reviewed in the french edition as one of the best current commentaries on mark as a narrative critical commentary it favors an interpretation of the gospel that tries to grasp the dynamic of the text taken as a whole even if the technical vocabulary of narrative analysis is not used and the main results of the historical critical criticism particularly those of redaction criticism are not neglected as the notes will reveal it is narrative criticism that guides the proceedings

Publications 1919 both the special sciences and ordinary experience present us with a world of macro entities trees birds lakes mountains humans houses and sculptures to name a few which materially depend on lower level configurations but which are also distinct from and distinctively efficacious as compared to those configurations this give rise to two key questions first what is metaphysical emergence more precisely second is there actually any metaphysical emergence metaphysical emergence provides clear compelling and systematic answers to these questions wilson argues that there are two and only two forms of metaphysical emergence that make sense of the target cases weak emergence whereby a macro entity or feature has a proper subset of the powers of its base level configuration and strong emergence whereby a macro entity or feature has a new power as compared to its base level configuration given that the lower level configurations are physical weak emergence unifies and accommodates diverse accounts of realization associated with varieties of non reductive physicalism whereas strong emergence unifies and accommodates anti physicalist views according to which there may be fundamentally novel features forces interactions or laws at higher levels of compositional complexity after defending each form of emergence from various objections wilson considers whether complex systems ordinary objects consciousness and free will are actually either weakly or strongly metaphysically emergent she argues that weak emergence is quite common and that strong emergence while in most cases at best a live empirical possibility is instantiated for the important case of free will

The Book of Joby 2007-08-21 the book of joby is an epic fantasy complete in one volume lucifer and the creator have entered yet again into a

wager they've made many times before but this time the existence of creation itself is balanced on the outcome born in California during the twilight years of a weary millennium nine year old Joby Peterson dreams of blazing like a bonfire against the gathering darkness of his times like a knight of the Round Table instead he is subjected to a life of crippling self-doubt and relentless mediocrity inflicted by an enemy he did nothing to earn and cannot begin to comprehend though imperiled themselves the angels are forbidden to intervene left to struggle with their own loyalties and the question of obedience they watch Lucifer work virtually unhindered to turn Joby's heart of gold into ash and stone while God sits by seemingly unconcerned and so when he is grown to manhood Joby's once luminous love of life seems altogether lost and Lucifer's victory assured what hope remains lies hidden in the beauty, warmth, and innocence of a forgotten seaside village whose odd inhabitants seem to defy the modern world's most inflexible assumptions and in the hearts of Joby's long-lost youthful love and her emotionally wounded son but the ravenous forces of destruction that follow Joby into this concealed paradise plan to use these same things to bring him and his world to ruin as the final struggle unfolds one question occupies every mind in heaven and in hell which will prove stronger: love or rage the book of Joby is an instant classic of contemporary fantasy at the publisher's request this title is being sold without digital rights management software DRM applied

The Gospel of Mark 2002

The Gospel according to Mark 2012-07-06 imagine sitting in the cockpit of a jet fighter descending to the rolling moving flight deck of a super carrier at sea you have 600 feet of flight deck to thread the eye of the needle and land safely ten thousand times ten thousand this dangerous drama has been repeated in the history of american carrier aviation it is simply extraordinary this drama at sea if viewed through the proper lens can have great spiritual significance for your life imagine that the flight deck represents your safe haven in life the place you return to again and again for meaning and stability the flight deck is also the catapult for every new mission in life but here s the hook god script for your life written by his own hand is better than any script you could write for yourself without god s script engaging your life the bolters and wave offs in your life s vocation will be frequent and the safe traps upon his flight deck few for me to say to you choose god s script is far too simple and simplistic discovering god s script for your life is much more complex and often counterintuitive against the powers of human reasoning nevertheless it is only his script for your life that will lead you through the eye of the needle to reach the blessed end of god s script for your dreams life your life is a great drama take the chance and live without god s script and you will bolter again and again with the imminent danger of ditching your plane into the angry sea god alone threads the needle reframing your life until he brings you safely aboard his celestial flight deck turning every ordinary life into something truly extraordinary i have written this little book from my heart to yours via real life vignettes spread across the spectrum of my own ordinary life demonstrating that the grace of god is alive active and at work if god above can touch my ordinary life with his extraordinary grace as i wander about in the midst of eight billion souls strolling across planet earth and keep me on the narrow path of his vocation chosen for me will he not do the same for you most certainly true you re approaching the flight deck flaps down tailhook down call the ball trapped you have safely landed on the celestial flight deck of god s grace ready for a new extraordinary mission in your ordinary life discover god s script for you to god be all the glory
