annoyed at one point or another we've all been asked to name five people living or dead with whom we'd like to have dinner why do we choose the people we do and what if that dinner was to actually happen these are the questions Rebecca Serle contends with in her utterly captivating novel *The Dinner List* a story imbued with the same delightful magical realism as *One Day* and the life-changing romance of *Me Before You* when Sabrina arrives at her thirtieth birthday dinner she finds at the table not just her best friend but also three significant people from her past and well Audrey Hepburn as the appetizers are served wine poured and dinner table conversation begins it becomes clear that there's a reason these six people have been gathered together a landmark book Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes vice a book as powerful and influential as Rebecca Solnit's *Men Explain Things to Me* her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their

losses and had turned their back to the victories behind them and the unimaginable changes soon to come in it she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable drawing on her decades of activism and a wide reading of environmental cultural and political history solnit argues that radicals have a long neglected history of transformative victories that the positive consequences of our acts are not always immediately seen directly knowable or even measurable and that pessimism and despair rest on an unwarranted confidence about what is going to happen next now with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book one of the best books of the 21st century the guardian no writer has better understood the mix of fear and possibility peril and exuberance that s marked this new millennium bill mckibben new york times
