Louisiana: A History 1984-05-17 excerpt from the story of louisiana such a story is not to be well told by him who runs as he tells it reading for an ease loving public is prepared at the expense of un labor even when genius drives the pen and fiction is the product desired much more is it a work of toil when the mere uninspired of events is expected to link and group dry facts in a way that will be the most truthful and at the same time the most picturesque impression of the history involved the novelist may nay he must take liberties with the historian has no alternative he must follow the current of his from fact to fact and take things just as they present themselves procrustean demand of truth presents to the writer a limitation singularly inimical to unity of effect and peculiarly deadly to dramatic directness of presentation especially when the history in hand is too brief as to enforce the utmost economy of phrasing about the purpose forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format while repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentional left to preserve the state of such historical works

Louisiana's Way Home 2005-07-21 the nineteen stories that this memorable collection comprises are a powerful testament to the

continuing vitality of the literary tradition in Louisiana something in common includes work by such well known Louisiana writers as W. Percy Ernest, Gaines, Shirley Ann Grau and André Dubus as well as stories by younger writers whose reputations are still being established. The stories provide a remarkable record of the vigor of fiction in Louisiana as the twentieth century draws to a close though contemporary Louisiana stories are a result of the habit of telling tales that goes back to the earliest days of the state's history. They come from writers who may live in Maine or California but who remember that our stories become a mirror in which we can see ourselves and know who we are and where we have come from. The stories have in common a fundamental belief in the power of the written word to define a particular place and time, to testify to the rich culture of the past when Louisiana's ways set it apart and to present that is pulling the state to be part of social forces foreign to its ways. They reveal a society of several races and many histories with fading definitions of traditional roles and changing patterns. Additionally these stories depict the changes brought on by merging the old with the new. They rehearse the familiar themes of evil, freedom and reality with a voice not heard in the Louisiana of the past. To establish tradition they bring a fresh point of view something in common remembers the past, shows us the present and points toward the future.
