today there are over one hundred nuclear reactors operating in our backyards from indian point in new york to diablo canyon in california proponents claim that nuclear power is the only viable alternative to fossil fuels and due to rising energy consumption and the looming threat of global warming they are pushing for an even greater investment here energy economist andrew mckillop and social scientist martin cohen argue that the nuclear power dream being sold to us is pure fantasy debunking the multilayered myth that nuclear energy is cheap clean and safe they demonstrate how landscapes are ravaged in search of the elusive yellowcake to fuel the reactors and how energy companies and politicians rarely discuss the true costs of nuclear power plants from the subsidies that build the infrastructure to the unspoken guarantee that the public will pick up the cleanup cost in the event of a meltdown which can easily top 100 billion dollars *aven* is a perky hilarious and inspiring protagonist whose attitude and humor will linger even after the last page has turned school library journal starred review *aven green* loves to tell people that she lost her arms in an alligator wrestling match or a wildfire in tanzania but the truth is she was born without them and when her parents take a job running stagecoach pass a rundown western theme park in arizona *aven* moves with them across the country knowing that she ll have to answer the question over and over again her new life takes an unexpected turn when she bonds with connor a classmate who also feels isolated because of his own disability and they discover a room at stagecoach pass that holds bigger secrets than *aven* ever could have imagined it s hard to solve a mystery help a friend and face your worst fears but *aven* s about to discover she can do it all even without arms autumn 2017 kids indie next pick junior library guild selection library of congress s 52 great reads list 2018 this book connects the history of pasadena college and the crusaders with the invention of basketball and the muscular christianity movement it is a look into the riveting relationship between sport and church and the spiritual connection with the invention of the game a novelistic mosaic that simultaneously reads like a thriller and like a strange dreamlike excursion into the subconscious the new york times years ago when *house of leaves* was first being passed around it was nothing more than a badly bundled heap of paper parts of which would occasionally surface on the internet no one could have anticipated the small but devoted following this terrifying story would soon command starting with an odd assortment of marginalized youth musicians tattoo artists

programmers strippers environmentalists and adrenaline junkies the book eventually made its way into the hands of older generations who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children now this astonishing novel is made available in book form complete with the original colored words vertical footnotes and second and third appendices the story remains unchanged focusing on a young family that moves into a small home on ash tree lane where they discover something is terribly wrong their house is bigger on the inside than it is on the outside of course neither pulitzer prize winning photojournalist will navidson nor his companion karen green was prepared to face the consequences of that impossibility until the day their two little children wandered off and their voices eerily began to return another story of creature darkness of an ever growing abyss behind a closet door and of that unholy growl which soon enough would tear through their walls and consume all their dreams the new york times bestseller about a young black man s journey from violence and despair to the threshold of stardom a beautiful tribute to the power of good teachers terry gross fresh air one of the most inspiring stories i ve come across in a long time pamela paul new york times book review ryan speedo green had a tough upbringing in southeastern virginia his family lived in a trailer park and later a bullet riddled house across the street from drug dealers his father was absent his mother was volatile and abusive at the age of twelve ryan was sent to virginia s juvenile facility of last resort he was placed in solitary confinement he was uncontrollable uncontainable with little hope for the future in 2011 at the age of twenty four ryan won a nationwide competition hosted by new york s metropolitan opera beating out 1 200 other talented singers today he is a rising star performing major roles at the met and europe s most prestigious opera houses sing for your life chronicles ryan s suspenseful racially charged and artistically intricate journey from solitary confinement to stardom daniel bergner takes readers on ryan s path toward redemption introducing us to a cast of memorable characters including the two teachers from his childhood who redirect his rage into music and his long lost father who finally reappears to hear ryan sing bergner illuminates all that it takes technically creatively to find and foster the beauty of the human voice and sing for your life sheds unique light on the enduring and complex realities of race in america 1 new york times bestseller oprah s book club pick an instant american classic and almost certainly the keynote nonfiction book of the american century thus far dwight garner the new york times the pulitzer prize winning bestselling author of the warmth of other suns examines the unspoken caste system that has shaped america and shows how our lives today are still defined by a hierarchy of human divisions 1 nonfiction book of the year time one of the best books of the year the washington post the new york times los angeles times the boston globe o the oprah magazine npr bloomberg the christian science monitor new york post the new york public library fortune smithsonian magazine marie claire slate library journal kirkus reviews winner of the carl sandberg literary award winner of the los angeles times book prize national book award longlist national book critics circle award finalist dayton literary peace prize finalist pen john kenneth galbraith award for nonfiction finalist pen jean stein book award longlist kirkus prize finalist as we go about our daily lives caste is the wordless usher in a darkened theater flashlight cast down in the aisles guiding us to our assigned seats for a performance the hierarchy of caste is not about feelings or morality it is about power which groups have it and which do not in this brilliant book isabel wilkerson gives us a masterful portrait of an unseen phenomenon in america as she explores through an immersive deeply researched and beautifully written narrative and stories about real people how america today and throughout its history has been shaped by a hidden caste system a rigid hierarchy of human rankings beyond race class or other factors there is a powerful caste system that influences people s lives and behavior

and the nation's fate linking the caste systems of America, India, and Nazi Germany. Wilkerson explores eight pillars that underlie caste systems across civilizations including divine will, bloodlines, stigma, and more, using riveting stories about people including Martin Luther King Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others. She shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews. She discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against. She writes about the surprising health costs of caste in depression and life expectancy and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions toward hope in our common humanity.

Original and Revealing: Caste The origins of our discontents is an eye-opening story of people and history and a reexamination of what lies under the surface of ordinary lives and of American life today.

Green Living is a practical lifestyle guide to living life more thoughtfully, less buying, more doing, less wanting, and more enjoying. A new edition of the bestselling *Live Green*, packed with new content and beautiful lifestyle photography to help inspire your journey to a more sustainable life. This book is a collection of changes you can make to your home and lifestyle over the course of a year.

Jen Chillingworth offers up achievable advice and tips for anyone and everyone, no matter where you live or what job you do, from making your own cleaning products, soy candles, buying vintage, giving up plastic, to celebrating simply. Discover how to get the most out of living a more modest, meaningful life. Learn to live and enjoy the little things while many books have been written on the Falklands War, this is the first to focus on the vital aspect of logistics. The challenges were huge: the lack of preparation time, the urgency, the huge distances involved, the need to requisition ships from trade to name but four. After a brief discussion of events leading to Argentina's invasion, the book describes in detail the rush to re-organise and deploy forces, despatch a large task force, the innovative solutions needed to sustain the task force, the vital staging base at Ascension Island, the in-theatre resupply, the setbacks, and finally the restoring of order after victory. Had the logistics plan failed, victory would have been impossible and humiliation inevitable. With no food for the troops, no ammunition for the guns, no medical support for casualties, etc., the lessons learnt have never been more important with increasing numbers of out-of-area operations required in remote trouble spots at short notice. The Falklands experience is crucial for the education of new generations of military planners and fascinating for military buffs, and this book fills an important gap.

A mindbending, relentlessly surprising thriller from the author of the bestselling *Wayward Pines* trilogy. Are you happy with your life? Those are the last words Jason Dessen hears before the masked abductor knocks him unconscious. Before he awakens to find himself strapped to a gurney surrounded by strangers in hazmat suits, before a man Jason's never met smiles down at him and says, "Welcome back, my friend." In this world, he's woken up to Jason's life is not the one he knows. His wife is not his wife, his son was never born, and Jason is not an ordinary college physics professor but a celebrated genius who has achieved something remarkable, something impossible. Is it this world or the other that's the dream, and even if the home he remembers is real, how can Jason possibly make it back to the family he loves? The answers lie in a journey more wondrous and horrifying than anything he could've imagined, one that will force him to confront the darkest parts of himself. Even as he battles a terrifying, seemingly unbeatable foe, dark matter is a brilliantly plotted tale that is at once sweeping and intimate, mind-bendingly strange and profoundly human. A relentlessly surprising science fiction thriller about choices, paths not taken, and how far we'll go to claim the lives we dream of.

Captain Green is back, and this time he's creating a gadget to help save the planet as he fine-tunes his

invention disaster strikes hornbill's tree has been chopped down and there's tree trouble for elephant and orangutan too captain green scrambles to finish his invention a tree machine and zooms to the rescue zap zoop zink trees pop up everywhere until bang oh no how will captain green save the animals now a strikingly original exploration of what it might mean to be authentically human in the age of artificial intelligence from the author of the critically acclaimed interior states meghan o'gieblyn is a brilliant and humble philosopher and her book is an explosively thought provoking candidly personal ride i wished never to end this book is such an original synthesis of ideas and disclosures it introduces what will soon be called the o'gieblyn genre of essay writing heidi julavits author of the folded clock for most of human history the world was a magical and enchanted place ruled by forces beyond our understanding the rise of science and descartes's division of mind from world made materialism our ruling paradigm in the process asking whether our own consciousness i.e. souls might be illusions now the inexorable rise of technology with artificial intelligences that surpass our comprehension and control and the spread of digital metaphors for self understanding the core questions of existence identity knowledge the very nature and purpose of life itself urgently require rethinking meghan o'gieblyn tackles this challenge with philosophical rigor intellectual reach essayistic verve refreshing originality and an ironic sense of contradiction she draws deeply and sometimes humorously from her own personal experience as a formerly religious believer still haunted by questions of faith and she serves as the best possible guide to navigating the territory we are all entering gene ramone brook chaplain brookie ministers to black inmates in the green machine the nickname for the privatized for profit prison that relies on a steady stream of black and brown inmates to fill the coffers of its big corporate contractors it's a place where anguish quickly replaces hope chaplain brookie's ministry aims to tackle the issues the inmates face and prepare them for life beyond the green machine but it's not having the desired impact so he decides to do something radically different he pulls together an unlikely team of inmates to carry out his plan former businessman mr j who has spent twenty nine years in prison for a crime he didn't commit bright young rapper chocolate who was in the wrong place at the wrong time and vanilla who was falsely framed as a drug kingpin by his wealthy classmates chaplain brookie faces a major challenge when a fellow chaplain tries to sabotage his plan the complicated intriguing lives of these colorful characters come together in the green machine a rare glimpse inside prison walls that illuminates the inmates constant battle against degradation humiliation and dehumanization combining compassion and a compelling chronicle of prison life author daisy m jenkins shines a light on the problems and challenges of mass incarceration and the enormous need for rehabilitation the green machine will make you laugh cry and think about life and those living it behind prison walls what is life like for workers in the gig economy is it a paradise of flexibility and individual freedom or is it a world of exploitation and conflict callum cant took a job with one of the most prominent platforms deliveroo to find out his vivid account of the reality is grim workers are being tyrannised by algorithms and exploited for the profit of the few but they are not taking it lying down cant reveals a transnational network of encrypted chats and informal groups which have given birth to a wave of strikes and protests far from being atomised individuals helpless in the face of massive tech companies workers are tearing up the rulebook and taking back control new developments in the workplace are combining to produce an explosive subterranean class struggle where the stakes are high and the risks are higher riding for deliveroo is the first portrait of a new generation of working class militants its mixture of compelling first hand testimony and engaging analysis is essential for anyone wishing to understand class struggle in platform capitalism who says living a green lifestyle has to be a chore part reference part lifestyle with a dash

of inspiration green living is full of approachable accessible and easily implemented strategies to quickly and easily bring sustainability into all areas of your life and home policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission a key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system an effective internal control system helps an entity adapt to shifting environments evolving demands changing risks and new priorities as programs change and entities strive to improve operational processes and implement new technology management continually evaluates its internal control system so that it is effective and updated when necessary section 3512 c and d of title 31 of the united states code commonly known as the federal managers financial integrity act fmfia requires the comptroller general to issue standards for internal control in the federal government an all new official original novel from the twisted world of the hit horror video game bendy and the ink machine seventeen year old buddy has spent most of his life trying to escape the lower east side slums of new york city working as a delivery boy to support his family buddy wants to become an artist a dream he's sure will never be realized but that all changes when a delivery job puts him face to face with mister joey drew the eccentric owner of an animation studio mister drew takes buddy under his wing as an apprentice thrusting him into a world unlike anything buddy has ever seen before there's the colorful cast of the studio from the cranky yet driven composer sammy lawrence to dot the writing intern and buddy's counterpart working for mister drew buddy starts to think that maybe it's really as simple as mister drew says dreams do come true but not everything at the studio is as picture perfect as it seems something is going bump in the night at joey drew studios something that leaves behind trails of thick dark ink while the studio frantically works toward their latest deadline buddy and dot team up to find out just what is tormenting the studio after hours even if it means tracking the trail to mister drew himself don't miss this official original pulse pounding story from award winning author adrienne kress developed with themeatly mike mood and bookpast high school two words that struck fear into the heart of every armless middle schooler i knew which was me and like two people online the sequel to the critically acclaimed insignificant events in the life of a cactus follows aven green as she confronts yet another challenge high school those preparing to slay the sucktastic beast known as high school will particularly appreciate this spirited read kirkus starred review just as aven starts to feel comfortable in stagecoach pass with her friends and schoolmates accustomed to her lack of armage everything changes once again she's about to begin high school with 3 000 new kids to stare at her and no matter how much aven tries to play it cool nothing prepares her for the reality in a year filled with confusion humiliation and just maybe love can aven manage to stay true to herself this disturbing but very important book makes clear we must dig deeper than the normal solutions we are offered yvon chouinard founder of patagonia works bright green lies exposes the hypocrisy and bankruptcy of leading environmental groups and their most prominent cheerleaders the best known environmentalists are not in the business of speaking truth or even holding up rational solutions to blunt the impending ecocide but instead indulge in a mendacious and self serving delusion that provides comfort at the expense of reality they fail to state the obvious we cannot continue to wallow in hedonistic consumption and industrial expansion and survive as a species the environmental debate derrick jensen and his coauthors argue has been distorted by hubris and the childish desire by those in industrialized nations to sustain the unsustainable all debates about environmental policy need to begin with honoring and protecting not the desires of the human species but with the sanctity of the earth itself we refuse to ask the right questions because these questions expose a stark truth we cannot continue to live as we are living to do so is suicidal folly tell me how you

seek and i will tell you what you are seeking the german philosopher ludwig wittgenstein said this is the power of bright green lies it asks the questions most refuse to ask and in that questioning that seeking uncovers profound truths we ignore at our peril chris hedges pulitzer prize winning journalist and author of america the farewell tour a guide for mining the imagination to find powerful new ways to succeed we need imagination now more than ever to find new opportunities rethink our businesses and discover paths to growth yet too many companies have lost their ability to imagine what is this mysterious capacity how does imagination work and how can organizations keep it alive and harness it in a systematic way the imagination machine answers these questions and more drawing on the experience and insights of ceos across several industries as well as lessons from neuroscience computer science psychology and philosophy martin reeves of boston consulting group s henderson institute and jack fuller an expert in neuroscience provide a fascinating look into the mechanics of imagination and lay out a process for creating ideas and bringing them to life the seduction how to open yourself up to surprises the idea how to generate new ideas the collision how to rethink your idea based on real world feedback the epidemic how to spread an evolving idea to others the new ordinary how to turn your novel idea into an accepted reality the encore how to repeat the process again and again imagination is one of the least understood but most crucial ingredients of success it s what makes the difference between an incremental change and the kinds of pivots and paradigm shifts that are essential to transformation especially during a crisis the imagination machine is the guide you need to demystify and operationalize this powerful human capacity to inject new life into your company and to head into unknown territory with the right tools at your disposal hands on machine learning with r provides a practical and applied approach to learning and developing intuition into today s most popular machine learning methods this book serves as a practitioner s guide to the machine learning process and is meant to help the reader learn to apply the machine learning stack within r which includes using various r packages such as glmnet h2o ranger xgboost keras and others to effectively model and gain insight from their data the book favors a hands on approach providing an intuitive understanding of machine learning concepts through concrete examples and just a little bit of theory throughout this book the reader will be exposed to the entire machine learning process including feature engineering resampling hyperparameter tuning model evaluation and interpretation the reader will be exposed to powerful algorithms such as regularized regression random forests gradient boosting machines deep learning generalized low rank models and more by favoring a hands on approach and using real word data the reader will gain an intuitive understanding of the architectures and engines that drive these algorithms and packages understand when and how to tune the various hyperparameters and be able to interpret model results by the end of this book the reader should have a firm grasp of r s machine learning stack and be able to implement a systematic approach for producing high quality modeling results features offers a practical and applied introduction to the most popular machine learning methods topics covered include feature engineering resampling deep learning and more uses a hands on approach and real world data from the academy award winning actor an unconventional memoir filled with raucous stories outlaw wisdom and lessons learned the hard way about living with greater satisfaction i ve been in this life for fifty years been trying to work out its riddle for forty two and been keeping diaries of clues to that riddle for the last thirty five notes about successes and failures joys and sorrows things that made me marvel and things that made me laugh out loud how to be fair how to have less stress how to have fun how to hurt people less how to get hurt less how to be a good man how to have meaning in life how to be more me recently i worked up the courage to sit down with those diaries i found stories i experienced lessons i learned and forgot poems

prayers prescriptions beliefs about what matters some great photographs and a whole bunch of bumper stickers i found a reliable theme an approach to living that gave me more satisfaction at the time and still if you know how and when to deal with life s challenges how to get relative with the inevitable you can enjoy a state of success i call catching greenlights so i took a one way ticket to the desert and wrote this book an album a record a story of my life so far this is fifty years of my sights and seems felts and figured outs cools and shamefuls graces truths and beauties of brutality getting away with getting caughts and getting wets while trying to dance between the raindrops hopefully it s medicine that tastes good a couple of aspirin instead of the infirmary a spaceship to mars without needing your pilot s license going to church without having to be born again and laughing through the tears it s a love letter to life it s also a guide to catching more greenlights and to realising that the yellows and reds eventually turn green too good luck third grader aven green has been solving mysteries for a really long time a whole month she s solved many important cases like the mystery of the cranky mom the mystery of the missing ice cream and the mystery of the smelly feet her record is nearly 100 only the mystery of the cereal in my underpants remains unsolved to this day aven asks all the right questions wields her detective kit carefully and follows up on every clue then her teacher s lunch bag with her lunch still in it is taken and aven s great grandma s beloved dog goes missing can this perceptive detective crack two cases at the same time luckily aven has a super powered brain full of lots of extra brain cells to take on both cases see she was born without arms so all of the cells that were supposed to make her arms went into making her brain instead at least that s her working theory for the mystery of why i have so many extra brain cells ten year old frank has trouble navigating his relationship with his younger brother max who is autistic frank loves soccer codes riding his bike and playing with his friends his brother max is five max only eats foods that are beige or white hates baths and if he has to wear a t shirt that isn t gray with yellow stripes he melts down down down frank longs for the brother he was promised by his parents before max was born someone who was supposed to be his biggest fan so he could be the best brother in the world instead frank has trouble navigating max s behavior and their relationship but when tragedy strikes frank finds a way to try and repair their fractured family and in doing so learns to love max for who he is in her debut novel katya balen uses her knowledge of autism and experience working with autistic people to create an intriguing and intense yet always respectful family story for readers of counting by 7s and the curious incident of the dog in the nighttime a junior library guild selection a bank street best book of the year from the greatest collection of american victoriana comes a wonderful evocation of the lives of women 100 years ago harvey green culls from letters and diaries quotes from magazines and looks at the clothes samplers books appliances toys and dolls of the era to provide a rare portrait of daily life in turn of the century america when nina mistry s life hits rock bottom she decides to change her stars by falling in love with herself a hilarious heartfelt story from outrageously funny novelist radhika sanghani nina didn t plan to spend her thirtieth birthday in jail yet here she is in her pajamas locked in a holding cell there s no wi fi no wine no carbs and no one to celebrate with unfortunately it gives nina plenty of time to reflect on how screwed up her life is she s just broken up with her fiancé and now has to move back into her childhood home to live with her depressed older brother and their uptight traditional indian mother her career as a freelance journalist isn t going in the direction she wants and all her friends are too busy being successful to hang out with her just as nina falls into despair a book lands in her cell how to fix your shitty life by loving yourself it must be destiny with literally nothing left to lose nina makes a life changing decision to embark on a self love journey by her next birthday she s going to find thirty things she loves about herself winner of the frank s and elizabeth d brewer best first

book prize of the American Society of Church History named a Society for U.S. Intellectual History notable title in American Intellectual History the story of liberal religion in the twentieth century Matthew S. Hedstrom contends is a story of cultural ascendancy this may come as a surprise most scholarship in American religious history after all equates the numerical decline of the Protestant mainline with the failure of religious liberalism yet a look beyond the pews into the wider culture reveals a more complex and fascinating story one Hedstrom tells in the rise of liberal religion Hedstrom attends especially to the critically important yet little studied arena of religious book culture particularly the religious middlebrow of mid century as the site where religious liberalism was most effectively popularized by looking at book weeks book clubs public libraries new publishing enterprises key authors and bestsellers wartime reading programs and fan mail among other sources Hedstrom is able to provide a rich on the ground account of the men women and organizations that drove religious liberalism's cultural rise in the 1920s 1930s and 1940s critically by the post WWII period the religious middlebrow had expanded beyond its Protestant roots using mystical and psychological spirituality as a platform for interreligious exchange this compelling history of religion and book culture not only shows how reading and book buying were critical twentieth century religious practices but also provides a model for thinking about the relationship of religion to consumer culture more broadly in this way the rise of liberal religion offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times the landmark Supreme Court property rights decision by the man who won it a truly significant event in the defense of property rights told informatively and entertainingly a gripping new drama in science if you want to understand how the concept of life is changing read this professor Andrew Briggs University of Oxford when Darwin set out to explain the origin of species he made no attempt to answer the deeper question what is life for generations scientists have struggled to make sense of this fundamental question life really does look like magic even a humble bacterium accomplishes things so dazzling that no human engineer can match it and yet huge advances in molecular biology over the past few decades have served only to deepen the mystery so can life be explained by known physics and chemistry or do we need something fundamentally new in this penetrating and wide ranging new analysis world renowned physicist and science communicator Paul Davies searches for answers in a field so new and fast moving that it lacks a name a domain where computing chemistry quantum physics and nanotechnology intersect at the heart of these diverse fields Davies explains is the concept of information a quantity with the power to unify biology with physics transform technology and medicine and even to illuminate the age old question of whether we are alone in the universe from life's murky origins to the microscopic engines that run the cells of our bodies the demon in the machine is a breath taking journey across the landscape of physics biology logic and computing weaving together cancer and consciousness two headed worms and bird navigation Davies reveals how biological organisms garner and process information to conjure order out of chaos opening a window on the secret of life itself the breathtakingly brilliant novel by the author of Infinite Jest New York Times is a deeply compelling and satisfying story as hilarious and fearless and original as anything Wallace ever wrote the agents at the IRS regional examination center in Peoria Illinois appear ordinary enough to newly arrived trainee David Foster Wallace but as he immerses himself in a routine so tedious and repetitive that new employees receive boredom survival training he learns of the extraordinary variety of personalities drawn to this strange calling and he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has the pale king remained unfinished at the time of David Foster Wallace's death but it is a deeply compelling and satisfying novel hilarious and fearless

and as original as anything wallace ever undertook it grapples directly with ultimate questions questions of life s meaning and of the value of work and society through characters imagined with the interior force and generosity that were wallace s unique gifts along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our time the pale king is by turns funny shrewd suspenseful piercing smart terrifying and rousing laura miller salon this cutting edge text offers an introduction to the emerging field of media archaeology and analyses the innovative theoretical and artistic methodology used to excavate current media through its past written with a steampunk attitude what is media archaeology examines the theoretical challenges of studying digital culture and memory and opens up the sedimented layers of contemporary media culture the author contextualizes media archaeology in relation to other key media studies debates including software studies german media theory imaginary media research new materialism and digital humanities what is media archaeology advances an innovative theoretical position while also presenting an engaging and accessible overview for students of media film and cultural studies it will be essential reading for anyone interested in the interdisciplinary ties between art technology and media my stomach feels like it s tied up in a knot my knees lock up and my face feels hot you know what i mean i m wilma jean the worry machine anxiety is a subjective sense of worry apprehension and or fear it is considered to be the number one health problem in america although quite common anxiety disorders in children are often misdiagnosed and overlooked everyone feels fear worry and apprehension from time to time but when these feelings prevent a person from doing what he she wants and or needs to do anxiety becomes a disability this fun and humorous book addresses the problem of anxiety in a way that relates to children of all ages it offers creative strategies for parents and teachers to use that can lessen the severity of anxiety the goal of the book is to give children the tools needed to feel more in control of their anxiety for those worries that are not in anyone s control i e the weather a worry hat is introduced a fun read for wilmas of all ages includes a note to parents and educators with tips on dealing with an anxious child a fascinating examination of technological utopianism and its complicated consequences in the charisma machine morgan ames chronicles the life and legacy of the one laptop per child project and explains why despite its failures the same utopian visions that inspired olpc still motivate other projects trying to use technology to disrupt education and development announced in 2005 by mit media lab cofounder nicholas negroponte one laptop per child promised to transform the lives of children across the global south with a small sturdy and cheap laptop computer powered by a hand crank in reality the project fell short in many ways starting with the hand crank which never materialized yet the project remained charismatic to many who were captivated by its claims of access to educational opportunities previously out of reach behind its promises olpc like many technology projects that make similarly grand claims had a fundamentally flawed vision of who the computer was made for and what role technology should play in learning drawing on fifty years of history and a seven month study of a model olpc project in paraguay ames reveals that the laptops were not only frustrating to use easy to break and hard to repair they were designed for technically precocious boys idealized younger versions of the developers themselves rather than the children who were actually using them the charisma machine offers a cautionary tale about the allure of technology hype and the problems that result when utopian dreams drive technology development jackspeak is a comprehensive reference guide to the humorous and colourful slang of the senior service explaining in layman s termsthe otherwise cryptic everyday language of the royal navy the royal marines and the fleet air arm featuring more than 4 000 alphabetical entries it was compiled by an ex rm surgeon who spent 24 years in theservice with useful cross
