**Contact
Mechanics**

1987-08-28 this
treatise is
concerned with the
stresses and

deformation of solid
bodies in contact
with each other
along curved
surfaces which
touch initially at a
point or along a line
examples are a
railway wheel and
rail or a pair of gear
wheel teeth
professor johnson
first reviews the
development of the
theory of contact
stresses since the
problem was
originally
addressed by h
ertz in 1882 next
he discusses the
influence of friction
and the
topographical
roughness of
surfaces and this is
incorporated into
the theory of
contact mechanics
an important
feature is the
treatment of bodies
which deform
plastically or

viscoelastically in
addition to
stationary contact
an appreciable
section of the book
is concerned with
bodies which are in
sliding or rolling
contact or which
collide

**Language Contact
in Europe** 2016

this book traces the
spread of the
perfect tense across
europe
demonstrating the
crucial role of
language contact

**The Oxford
Handbook of
Language Contact**

2020-01-10 the
phenomenon of
language contact
and how it affects
the structure of
languages has been
of great interest to
linguists in recent
years this
pioneering new
study looks at how
grammatical forms
and structures
evolve when
speakers of two
languages come
into contact and

offers insight into the mechanism that induces people to transfer grammatical structures from one language to another the book will be of great interest to all working in grammaticalization language contact and language change

Four Corners Level 2 Full Contact A with Self-study CD-ROM 2011-09-05

secondary mathematics teachers working in the Australian education sector are required to plan lessons that engage with students of different genders cultures and levels of literacy and numeracy teaching secondary mathematics engages directly with the Australian

curriculum mathematics and the Australian professional standards for teachers to help preservice teachers develop lesson plans that resonate with students this edition has been thoroughly revised and features a new chapter on supporting Aboriginal and Torres Strait Islander students by incorporating Aboriginal and Torres Strait Islander cultures and ways of knowing into lessons chapter content is supported by new features including short answer questions opportunities for reflection and in class activities further resources

additional activities and audio and visual recordings of mathematical problems are also available for students on the book's companion website teaching secondary mathematics is the essential guide for preservice mathematics teachers who want to understand the complex and ever changing Australian education landscape

English as a Contact Language

2013 interchange third edition is a four level series for adult and young adult learners of English from the beginning to the high intermediate level the interchange third edition full contact edition includes five

key components of interchange level 2 all under one cover the student's book the video activity book the workbook the interactive cd rom and the self study audio cd each student's book contains 16 teaching units frequent progress checks that allow students to assess and monitor their own learning and a self study section the workbook has six page units that follow the same sequence as the student's book recycling and reviewing language from previous units the full color video activity book is designed to accompany the video and provides pre and post viewing tasks for the learner the cd

rom provides engaging and enjoyable interactive activities for users to do on a computer at home or at school and includes sequences from the interchange videos the student's self study audio cd includes the snapshots word powers conversations pronunciation and self study sections from the student's book interchange level 2 full contact part 2 contains units 5-8 of interchange level 2 **Language Contact and Grammatical Change** 2005-01-27 this major new work explores the development of creoles and other new languages focusing on the

conceptual and methodological issues they raise for genetic linguistics written by an internationally renowned linguist the book surveys a wide range of examples of changes in the structure function and vitality of languages and suggests that similar ecologies have played the same kinds of roles in all cases of language evolution the ecology of language evolution will be welcomed by students and researchers in sociolinguistics creolistics theoretical linguistics and theories of evolution *Passages Level 2 Full Contact* 2014-09-04

passages third edition is a two level multi skills course that will quickly and effectively move adult and young adult learners of english from high intermediate to the advanced level the full contact version includes the complete student book workbook and video activity worksheets in one convenient book Language Contact in the Early Colonial Pacific 2014-03-27 every language has been influenced in some way by other languages in many cases this influence is reflected in words which have been absorbed from other languages as the names for newer items or ideas such as

perestroika manga or intifada from russian japanese and arabic respectively in other cases the influence of other languages goes deeper and includes the addition of new sounds grammatical forms and idioms to the pre existing language for example english s structure has been shaped in such a way by the effects of norse french latin and celtic though english is not alone in its openness to these influences any features can potentially be transferred from one language to another if the sociolinguistic and structural circumstances allow for it further new languages

pidgins creoles and mixed languages can come into being as the result of language contact in thirty three chapters the oxford handbook of language contact examines the various forms of contact induced linguistic change and the levels of language which have provided instances of these influences in addition it provides accounts of how language contact has affected some twenty languages spoken and signed from all parts of the world chapters are written by experts and native speakers from years of research and fieldwork ultimately this handbook provides an authoritative

account of the possibilities and products of contact induced linguistic change

Dynamics of

Language Contact

2003-03-20

the past decade has seen an unprecedented growth in the study of language contact associated partly with the linguistic effects of globalization and increased migration all over the world written by a leading expert in the field this much needed account brings together disparate

findings to examine the dynamics of contact between languages in an immigrant context using data from a wide range of languages including german dutch hungarian italian spanish croatian and vietnamese michael clyne discusses the dynamics of their contact with english clyne analyzes how and why these languages change in an immigration country like australia and asks why some languages survive longer than others the book contains useful comparisons between immigrant vintages generations and between bilinguals and trilinguals an outstanding contribution to the

study of language contact this book will be welcomed by students and researchers in linguistics bilingualism the sociology of language and education Touchstone Level 4 Full Contact 2014-01-09 touchstone together with viewpoint is a six level english program based on research from the cambridge english corpus touchstone second edition full contact with dvd level 4 includes four key components of the touchstone second edition series student s book level 4 workbook level 4 level 4 video activity pages and video on dvd **Interchange Level 1 Full Contact**

Contact

Mechanics 1992
recent
developments in
contact linguistics
suggest
considerable
overlap of branches
such as historical
linguistics

variationist
sociolinguistics
pidgin creole
linguistics language
acquisition etc this
book highlights the
complexity of
contact induced
language change
throughout the
history of english
by bringing
together cutting
edge research from
these fields special
focus is on recent
debates
surrounding
substratal influence
in earlier forms of
english particularly
celtic influence in
old english on
language shift
processes the
formation of irish
and overseas
varieties but also on
dialects in contact
the contact origins
of standard english
the notion of new
epicentres in world
english the role of

children and adults
in language change
as well as transfer
and language
learning with
contributions from
leading experts the
book offers fresh
and exciting
perspectives for
research and is at
the same time an
up to date overview
of the state of the
art in the respective
fields

Shape and
Structure, from
Engineering to
Nature 2000-10-16
seemingly universal
geometric forms
unite the flow
systems of
engineering and
nature for example
tree shaped flows
can be seen in
computers lungs
dendritic crystals
urban street
patterns and
communication
links in this
groundbreaking
book first published
in 2000 adrian
bejan considers the
design and
optimization of
engineered systems
and discovers a
deterministic
principle of the
generation of

geometric form in
natural systems
shape and structure
spring from the
struggle for better
performance in
both engineering
and nature this idea
is the basis of the
new constructal
theory the objective
and constraints
principle used in
engineering is the
same mechanism
from which the
geometry in natural
flow systems
emerges from heat
exchangers to river
channels the book
draws many
parallels between
the engineered and
the natural world
among the topics
covered are
mechanical
structure thermal
structure heat trees
ducts and rivers
turbulent structure
and structure in
transportation and

economics the
numerous
illustrations
examples and
homework
problems in every
chapter make this
an ideal text for
engineering design
courses its
provocative ideas
will also appeal to a
broad range of
readers in
engineering natural
sciences economics
and business
*Teaching
Secondary
Mathematics*
2021-09-24 this
volume presents a
historical
sociolinguistic
description and
analysis of maritime
polynesian pidgin it
offers linguistic and
sociohistorical
substantiation for a
regional eastern
polynesian based
pidgin and
challenges

conventional eurocentric assumptions about early colonial contact in the eastern pacific by arguing that maritime polynesian pidgin preceded the introduction of pidgin english by as much as a century emanuel j drechsel not only opens up new methodological avenues for historical sociolinguistic research in oceania by a combination of philology and ethnohistory but also gives greater recognition to pacific islanders in early contact between cultures students and researchers working on language contact language typology historical linguistics

and sociolinguistics will want to read this book it redefines our understanding of how europeans and americans interacted with pacific islanders in eastern polynesia during early encounters and offers an alternative model of language contact

Language contact

2009 most societies in today s world are multilingual language contact occurs when speakers of different languages interact and their languages influence each other this book is an introduction to the subject covering individual and societal multilingualism the acquisition of two or more languages

from birth second language acquisition in adulthood language change linguistic typology language processing and the structure of the language faculty it explains the effects of multilingualism on society and language policy as well as the consequences that long term bilingualism within communities can have for the structure of languages drawing on the author s own first hand observations of child and adult bilingualism the book provides a clear analysis of such phenomena as language convergence grammatical borrowing and mixed languages

Language Contact
2009-09-10 most societies in today's world are multilingual language contact occurs when speakers of different languages interact and their languages influence each other this book is an introduction to the subject covering individual and societal multilingualism the acquisition of two or more languages from birth second language acquisition in adulthood language change linguistic typology language processing and the structure of the language faculty it explains the effects of multilingualism on society and language policy as well as the

consequences that long term bilingualism within communities can have for the structure of languages drawing on the author's own first hand observations of child and adult bilingualism the book provides a clear analysis of such phenomena as language convergence grammatical borrowing and mixed languages

2014-01-09
An Introduction to Contact Topology
2008-03-13 this text on contact topology is a comprehensive introduction to the subject including recent striking applications in geometric and differential topology eliashberg's proof of cerf's theorem via the classification of tight contact structures on the 3 sphere and the kronheimer mrowka proof of property p for knots via symplectic fillings of contact 3 manifolds starting with the basic

differential topology of contact manifolds all aspects of 3 dimensional contact manifolds are treated in this book one notable feature is a detailed exposition of eliashberg s classification of overtwisted contact structures later chapters also deal with higher dimensional contact topology here the focus is on contact surgery but other constructions of contact manifolds are described such as open books or fibre connected sums this book serves both as a self contained introduction to the subject for advanced graduate students and as a reference for researchers

Touchstone Level 2 Full Contact
