family s story as a case study the authors of robert cole s world provide an intimate portrait of the social and economic life of a middling planter in the seventeenth century chesapeake including work routines and agricultural techniques the upbringing of children neighborhood relationships and community formation and the role of religion the cole plantation account a record that details what the plantation produced consumed purchased and sold over a twelve year period is the only known surviving document of its kind for seventeenth century british america along with cole s will it serves as the framework around which the authors build their analysis drawing on these and other records they present cole as an exemplar of the ordinary planter whose success created the capital base for the slave based plantation society of the eighteenth century surrender my love is a usa today bestseller you can always rely on melissa foster to deliver a story that s fresh emotional and fields focuses on the processes reactions and principles involved in the application of dielectrics in time dependent fields as well as the kerr effect statistical mechanics and polarization the publication first examines the phenomenological theory of linear dielectrics in time dependent fields empirical description of dielectric relaxation and the relationship between macroscopic and molecular dielectric relaxation behavior concerns cover the relationship between macroscopic and microscopic correlation functions statistical mechanics of linear dissipative systems and the relationship between response functions and correlation functions superpositions of distribution functions and the use of complex dielectric constant in problems with time dependent field sources the book then ponders on the dipole correlation function polarization in the infrared and optical frequency range and the kerr effect and related phenomena discussions focus on the kerr effect in condensed systems extensions of the kerr effect extrapolation of the refractive index to infinite wavelength results obtained from computer simulations rotational diffusion and general aspects of molecular reorientation the manuscript tackles the dielectric properties of molecular solids and liquid crystals and experimental determination of permanent dipole and quadrupole moments the text is a valuable source of data for researchers interested in the application of dielectrics in time dependent fields now an amc plus series starring lucy hale from the producers of killing eve william fawkes a controversial detective known as the wolf has just been reinstated to his post after he was suspended for assaulting a vindicated suspect still under psychological evaluation fawkes returns to the
