tells the editor or writer what is working what is not and what must be done to make what works better and fix what s not the story grid breaks down the component parts of stories to identify the problems and finding the problems in a story is almost as difficult as the writing of the story itself maybe even more difficult the story grid is a tool with many applications 1 it will tell a writer if a story works or doesn t work 2 it pinpoints story problems but does not emotionally abuse the writer revealing exactly where a story not the person creating the story the story has failed 3 it will tell the writer the specific work necessary to fix that story s problems 4 it is a tool to re envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer 5 it is a
