2022 edition 227 printed pages hundreds of photos and
diagrams do you own a clock that is special to you that
has stopped working perhaps a gift or a family heirloom
this book is for you do you like to tinker with mechanical
things this book is for you have you taken a clock apart
but can't get it back together this book is for you are you
fascinated with clocks have several you have bought but
do not work this book is for you many times the problem
is simple to correct be bold take on your project this book
will hold your hand every step of the way and guide you
to success you can do it why does an anniversary clock
stop working most likely it is because the suspension
spring is broken i will teach you how to replace it often
the works are dirty need oiling or most likely both when
the clock stops think of it as the oil light is on it's a cry for
help without oil the metal parts grind on each other
causing severe wear and damage oil also attracts dust
making the oil gummy and adding drag to its operation
until it can no longer overcome the friction if a clock is
oiled regularly every three to five years chances are you
will only ever need to re oil your clock if the clock is
allowed to run until it stops the only sure way to service it
is to remove the works from its case dismantle the parts
clean service and put the movement back together with
fresh oil and correct adjustment
