school for me both as a student and as a teacher as a kid i put more into getting ready for my turn to present than i put into the rest of my homework show and tell was real in a way that much of what i learned in school was not it was education that came out of my life experience as a teacher i was always surprised by what i learned from these amateur hours a kid i was sure i knew well would reach down into a paper bag he carried and fish out some odd shaped treasure and attach meaning to it beyond my most extravagant expectation again and again i learned that what i thought was only true for me only valued by me only cared about by me was common property the principles guiding this book are not far from the spirit of show and tell it is stuff from home that place in my mind and heart where i most truly live p s this volume picks up where i left off in all i really need to know i learned in kindergarten when i promised to tell about the time it was on fire when i lay down on it
