*As We Go About Our Daily Lives* Caste is the wordless usher in a darkened theater. Flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality; it is about power, which groups have it and which do not. In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate, linking the caste systems of America, India, and Nazi Germany. Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people including Martin Luther King Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others, she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews. She discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against. She writes about the surprising health costs of caste in depression and life expectancy and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions toward hope in our common humanity.

*Original and revealing* Caste: The Origins of Our Discontents is an eye-opening story of people and history and a reexamination of what lies under the surface of ordinary lives and of American life today. To survive his circumstances and a serial killer, Vander must make a monster of himself. Growing up in abject poverty, Vander Masozi faces dangers from all sides: his abusive father, roaming street gangs, predatory police officers, and the premonitions that are becoming more horrifying by the day. He is destined for a short, brutal life that is until Alexander Dayton offers him an opportunity to live a more extraordinary one. Alexander is a wealthy philanthropist, but his intentions are not as pure as Vander's, and the less fortunate of Cape Town believe he has a connection to a serial killer.
