technique typical of civil law giving privilege to rules of civil law most of the time but also introducing institutions from common law that are not incompatible with civil law it explains why the general principles of civil law and of unidroit help with this goal of harmonisation integrating the loopholes of the un convention on contracts for the international sale of goods cisg during its interpretation the work demonstrates why codification prevails over common law in the cisg most of the time giving certitude and sophistication to this matter which is vital for global commerce singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews fingertip guide to the designated bible reading for the day plus feast and saints days calendar format shows one full week at a glance uma reflexão contemporânea sobre a realidade exige uma abertura maior para as questões que envolvem as conexões entre os diversos saberes os saberes se encontram na fronteira do que chamamos de conhecimento podendo estes ser caracterizados como inter multi ou transdisciplinares o entendimento desta pluralidade propõe compreensões bem mais profundas sobre os humanos e o mundo

esta profundidade não é encontrada nas especialidades compartmentadas das ciências mas sim no espaço plural em que estas especialidades não conseguem penetrar já que se trata de um campo que necessariamente perpassa a reflexão filosófica compreendemos que a interdisciplinaridade é uma condição filosófica isto é a interdisciplinaridade é uma forma de pensar filosoficamente a filosofia representa a busca humana pela ampliação do saber pois ao encontrar se na fronteira tenta a todo momento ultrapassá-la ampliando o próprio conhecimento a fronteira o que aqui chamamos de encruzilhada não é apenas o espaço entre as diversas especialidades disciplinas científicas e as experiências propriamente humanas mas também a linha que separa o conhecido do desconhecido ampliar o conhecimento portanto exige um salto no escuro exige uma atitude filosófica neste contexto este livro enquanto coletânea de textos e ensaios representa a atitude filosófica de seus autores que buscaram clarear seus passos no caminho ainda obscuro da fronteira ou da encruzilhada esta coletânea é fruto de pesquisas epistemológicas interdisciplinares e existenciais de professores e alunos das universidades estadual e federal de Roraima

se dividindo em cinco capítulos sendo os dois primeiros uma reflexão sobre o papel dos intelectuais na sociedade o terceiro uma abordagem cartesiana sobre o ceticismo o quarto uma problematização sobre a consciência desde o panorama cinematográfico e o quinto uma análise filosófica sobre a linguagem religiosa gostaríamos de registrar o nosso agradecimento aos professores e alunos da graduação em filosofia e da pós graduação em filosofia da religião da universidade estadual de roraima assim como agradecemos aos programas de mestrado em comunicação da universidade federal de roraima e o mestrado profissional em segurança pública direitos humanos e cidadania da uerr agradecemos também à editora uerr edições e à gestão da universidade estadual de roraima pelo apoio no desenvolvimento deste projeto

reader friendly and applicable to everyday life a handbook on garment construction including fitting and other problems of garment making fourth edition for anyone who s ever wondered where she is when we need her even when we re too old to need her pocket mom comes to the rescue this is a collection of the essential practical wisdom of mom from housekeeping safety and hygiene tips to advice on life love and getting along learn how to cook perfect rice iron a shirt install shelf paper change the vacuum cleaner bag prevent mould fight germs dress for a first date and recognize true love when it comes to living in the real world mom really does know best in a long essay on the long poem duplessis invokes a quote from ronald johnson americans like to write big poems even if people don t read them it s a joke in part but also a telling indication of the difficulty of the subject long poems are elusive particularly in the slippery forms that have emerged in the postmodern mode duplessis quotes both nathaniel mackey and anne waldman in metaphorizing the poem as a box both in the sense of a vessel that contains and as a machine that processes an instrument on which language is played to reckon with a particularly noncompliant

variant of a notoriously slippery form  
duplessis works in a polyvalent mode a  
hybrid of critical analysis and speculative  
essay she resists a single focus approach to  
the long poem and does not venture a bravura  
one size all thesis yet there is an arc of  
argument here even as the book ranges across  
five chapters and a host of disparate  
writers duplessis roughly divides the long  
poem and the long poets into three genres  
epics quests and something she terms  
assemblages the poets surveyed will be  
familiar for most readers of twentieth  
century american and english poetry t s  
eliot ezra pound louis zukofsky charles  
olson alice notley anne waldman nathaniel  
mackey ron silliman and robert duncan but  
rather than attempting a definitive  
treatment of such a long roster duplessis  
assumes a certain familiarity in order to  
focus on key works a standout example comes  
in the third chapter in which duplessis  
reads dante by way of the modern long poem  
to generate surprising insights but she also  
carefully avoids the self confirming search  
for genealogical patterns e g eliot to pound  
to williams to zukofsky instead she  
deliberately seeks to see different but  
intersecting patterns of connection between

poems a nexus rather than a lineage in doing so she works around the metatextual challenge of the long poem and of her own attempt to essay it how to encompass everything the end result is a fascinating and generous work that defies neat categorization as anything other than essential
